

HELLO!

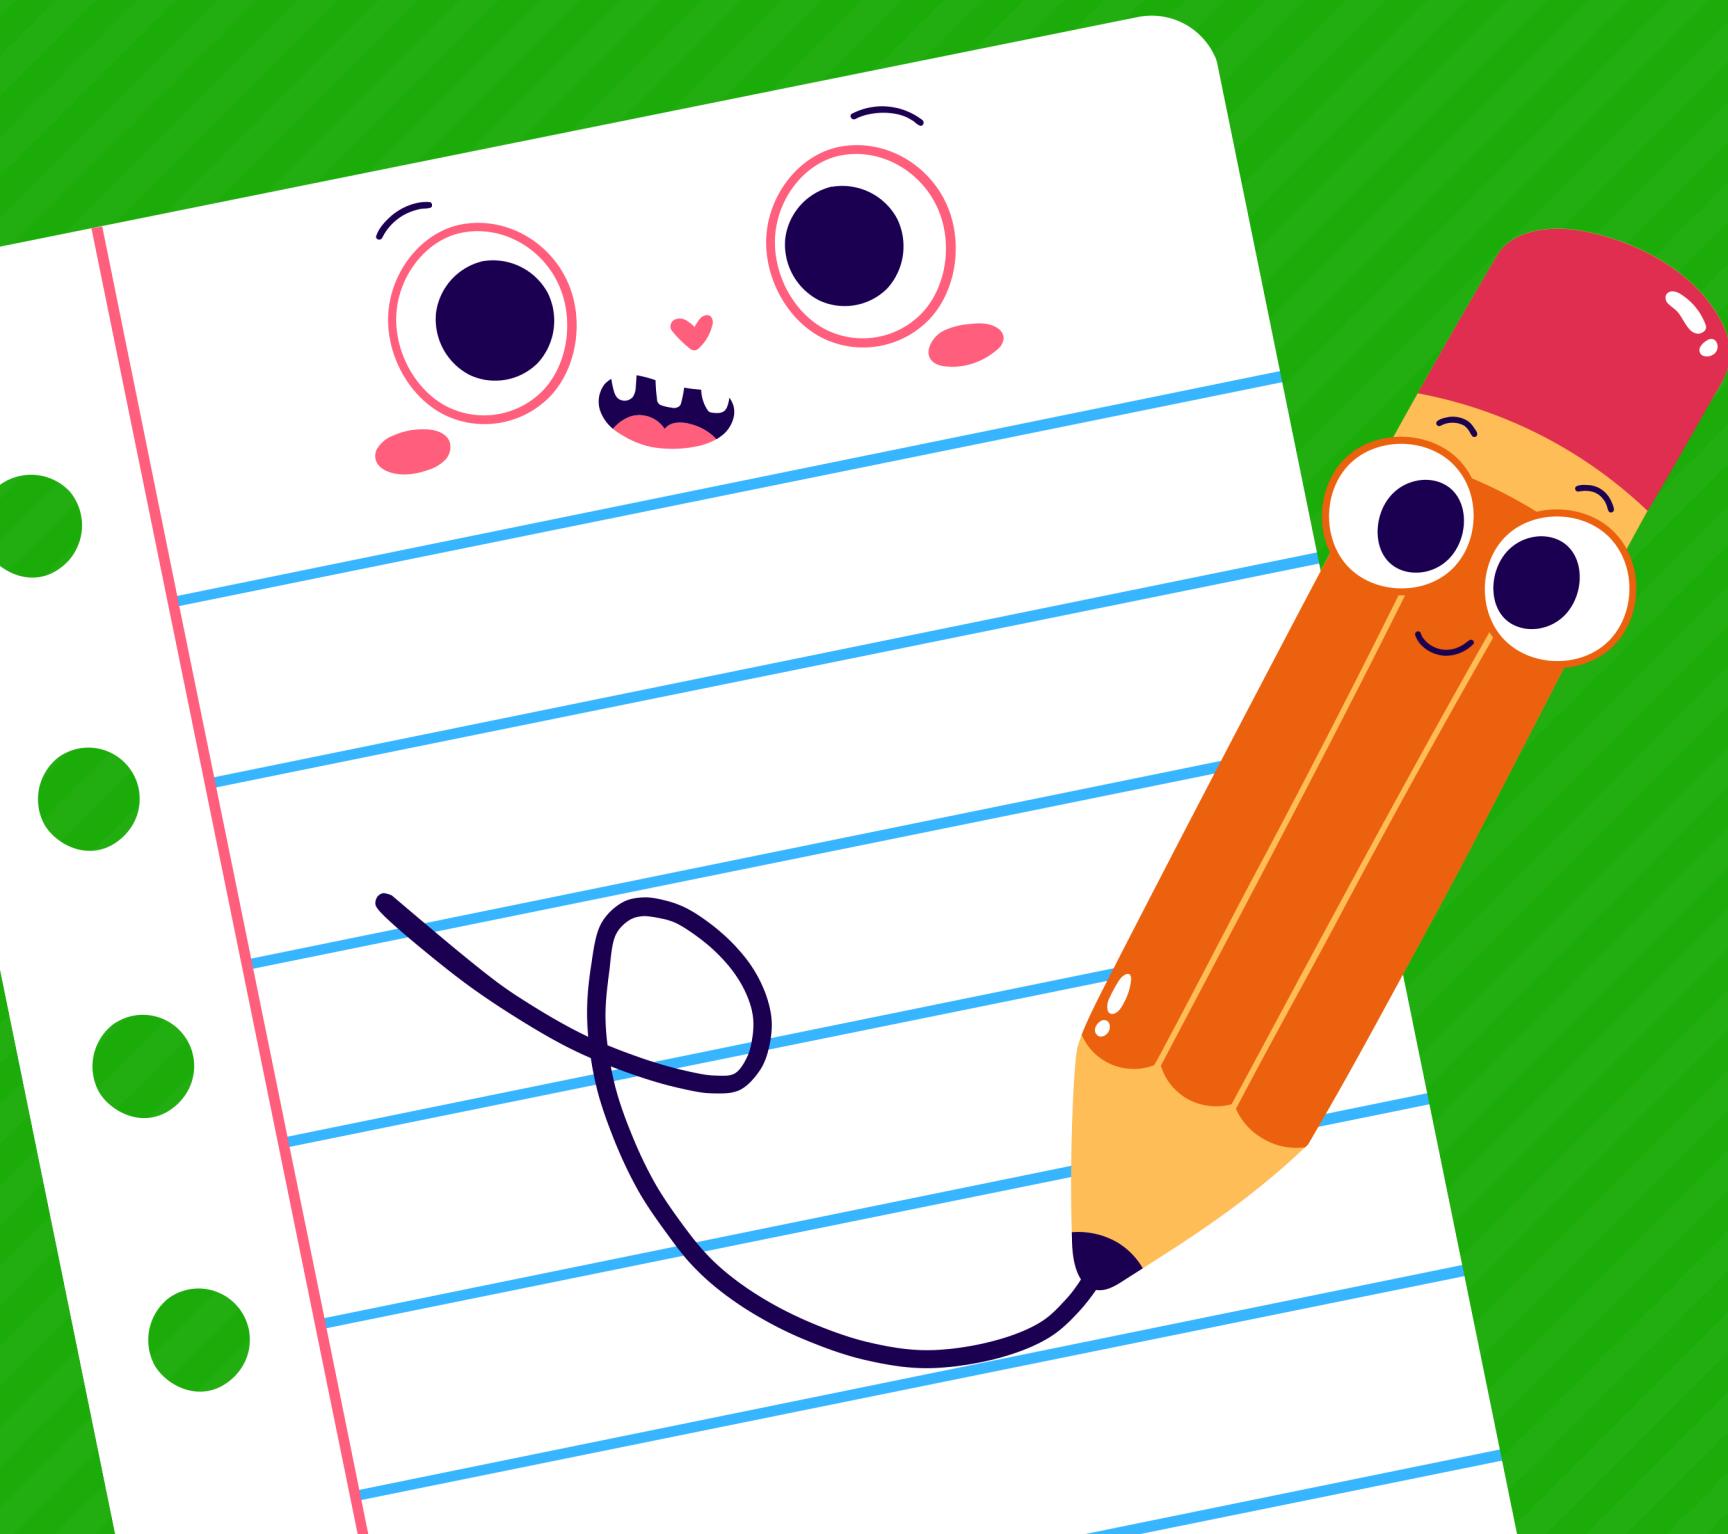

☀️Prachi Kumari☀️

🎓 Course: B.Tech in Information Technology

📅 17 Year: First Year

🕒 Institution: College of Technology, PANTNAGAR UNIVERSITY

CONTENT

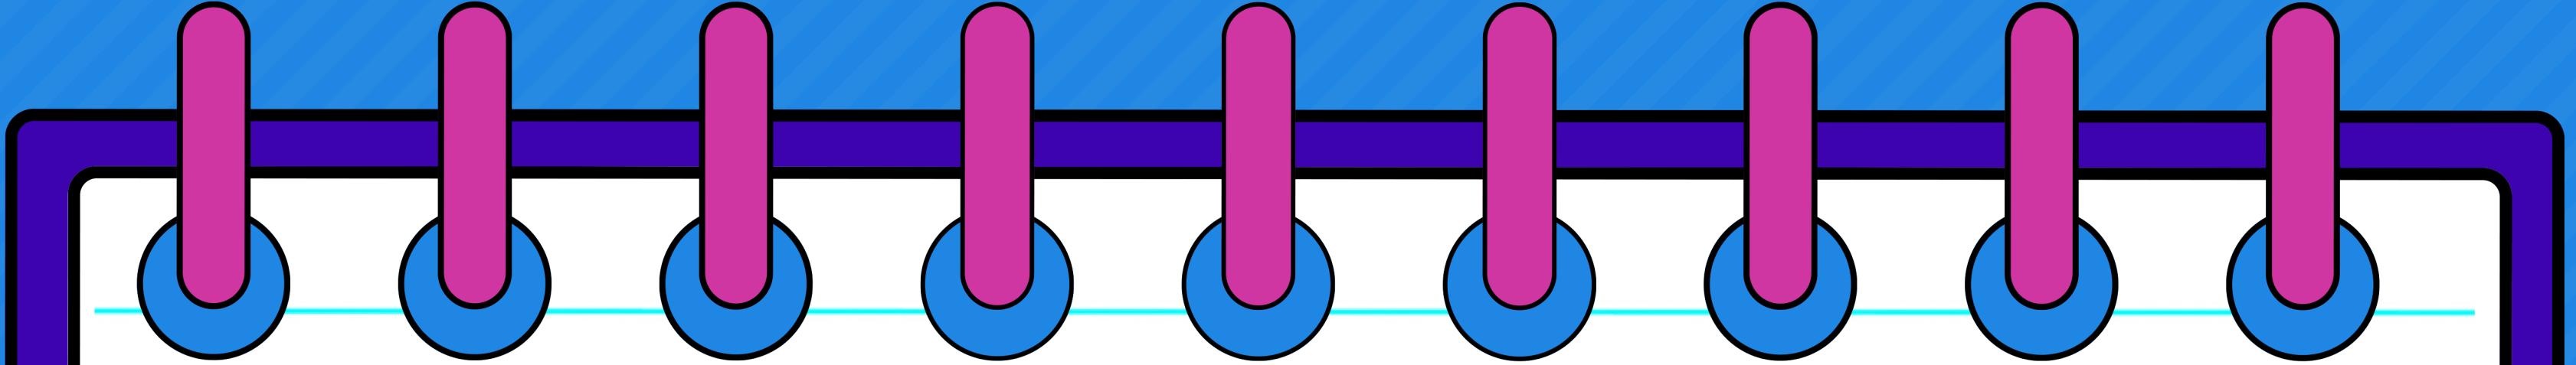

01. Introduction
02. Working
03. Uses
04. Advantages & Disadvantages
05. Conclusions

INTRODUCTION

- Project Name: To-Do List Application
- Objective:
- Develop a simple and intuitive application to manage tasks.
- Scope:
- Users can add, view, and delete tasks.
- Tasks are saved for future reference

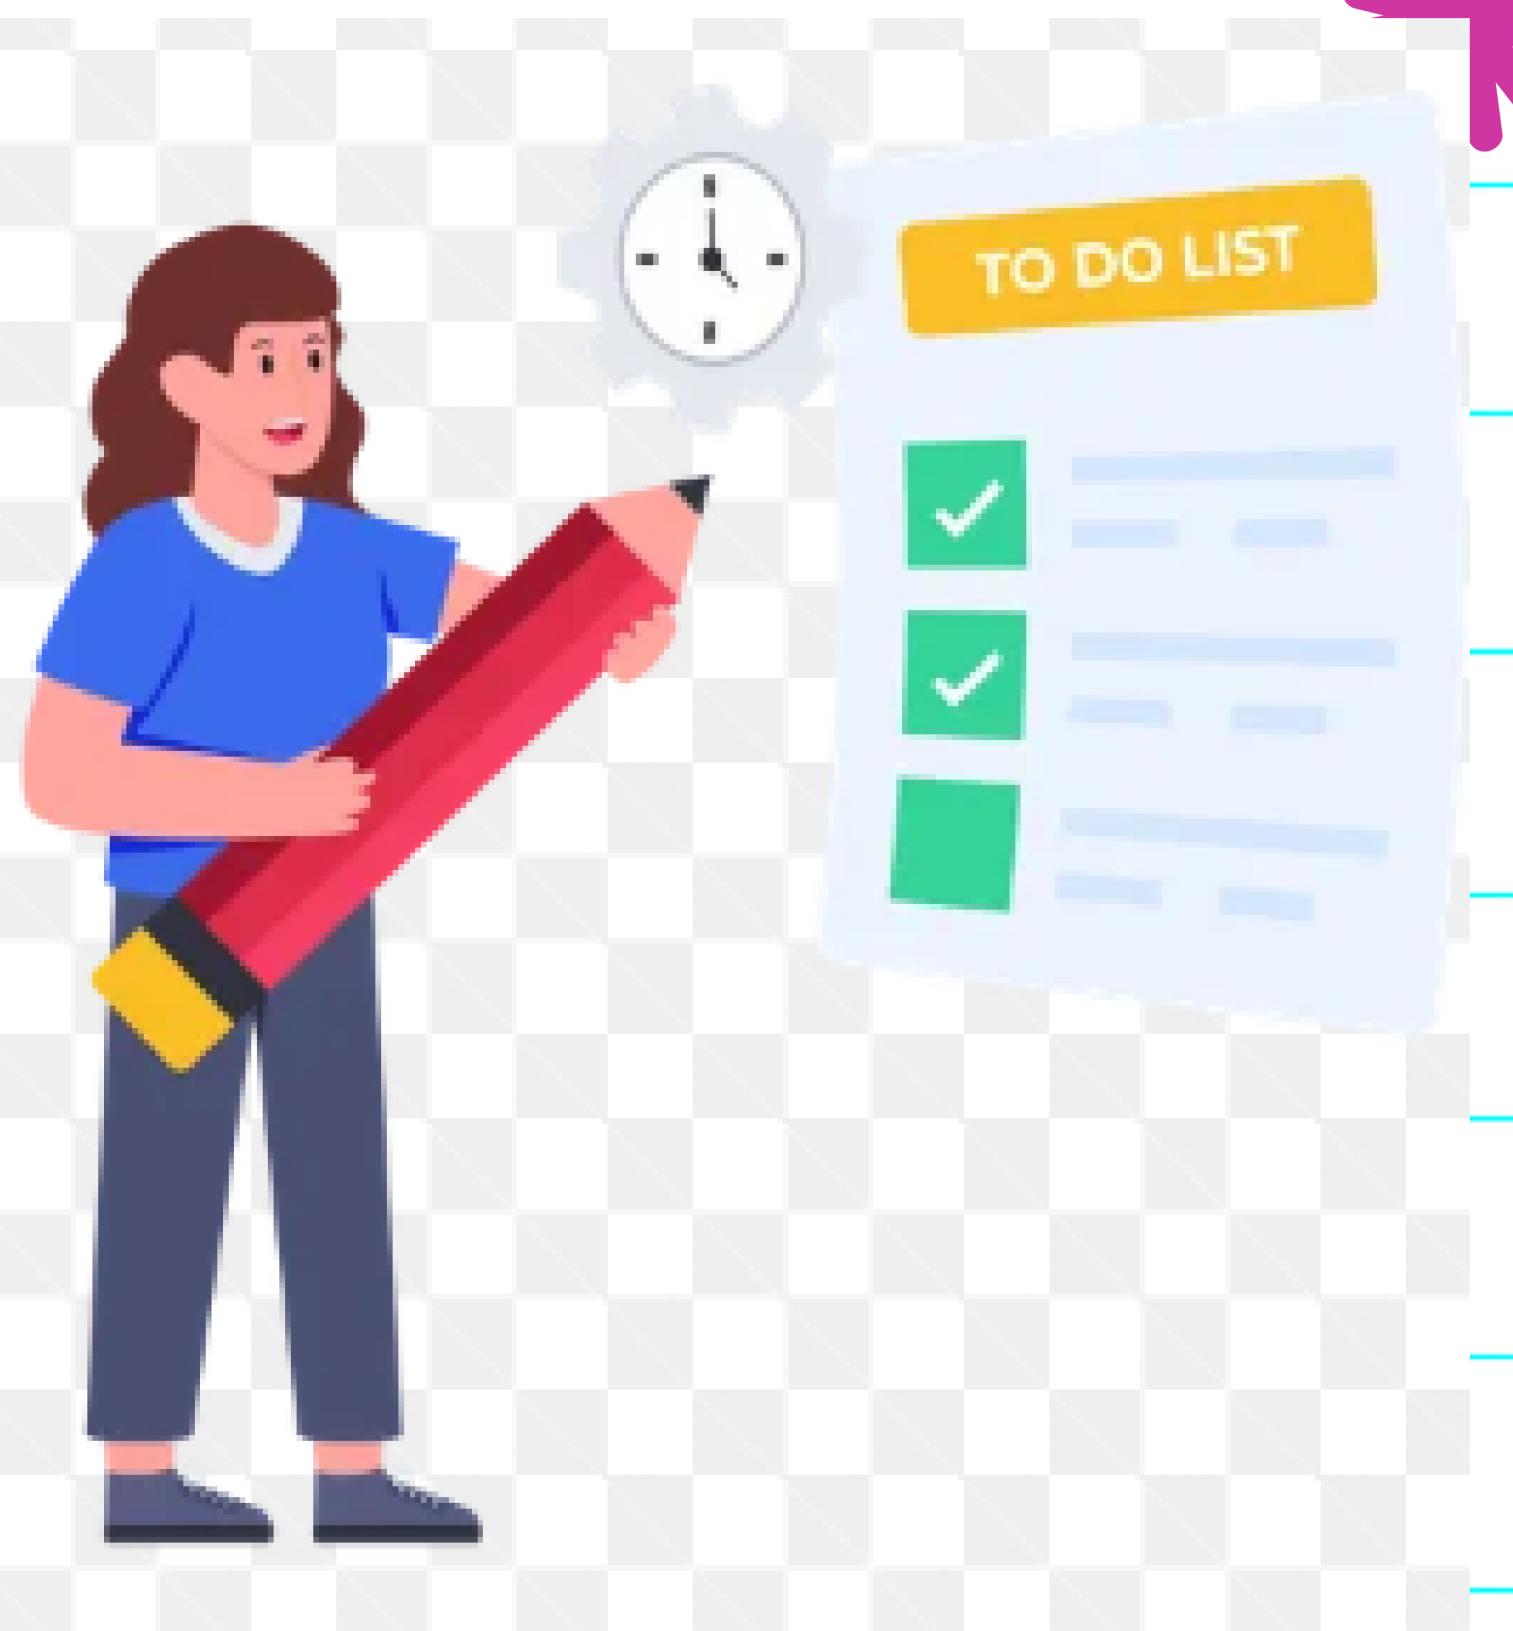

THE PROJECT

The To-Do List Application is a valuable tool for managing tasks and improving productivity. Future enhancements could make it even more powerful and versatile.

WORKING

- User Interaction:
 - Menu-driven interface for user actions.
 - Options to add, view, delete, save, and load tasks.
- Data Management:
 - Tasks stored in a list.
 - File handling for saving and loading tasks.
- Workflow:
 1. Open application.
 2. Choose an option (view/add/delete tasks).
 3. Perform the chosen action.
 4. Save tasks before exiting

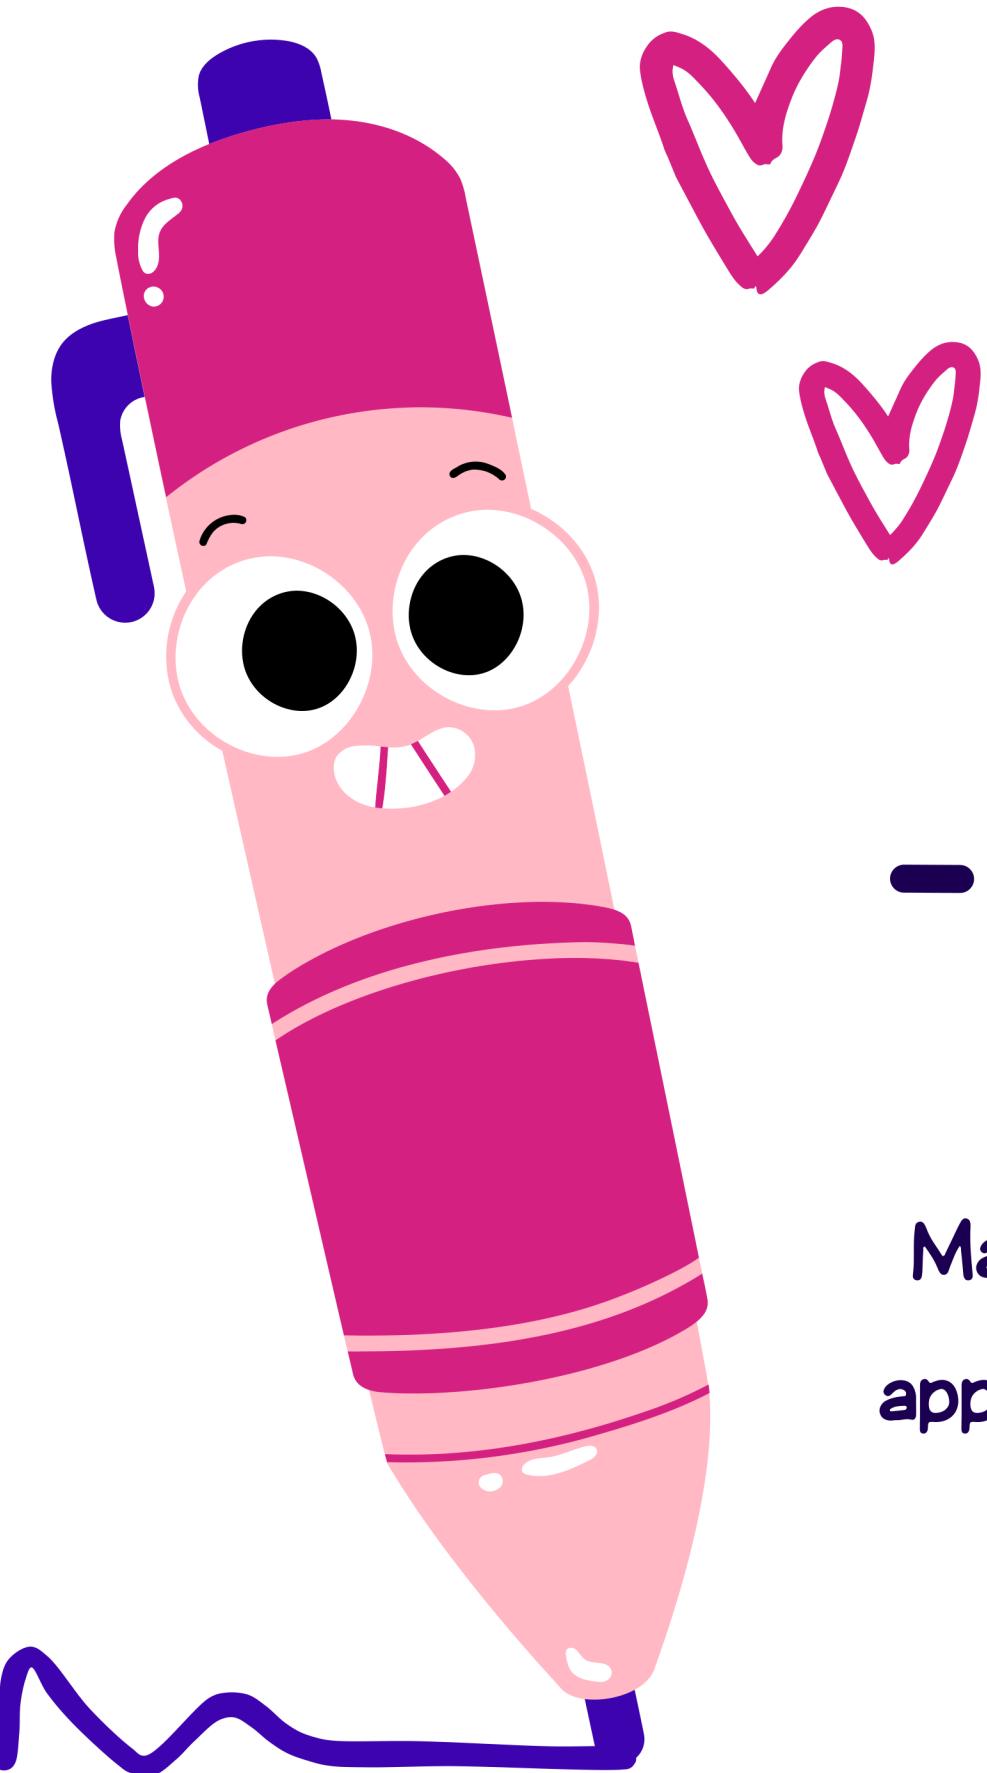

WHAT ARE USES

01. Personal Use

02. Professional Use

03. Educational Use

USES

- 01 Personal Use:
Managing daily chores,
appointments, and goals.
- 02 Professional Use:
Tracking work tasks,
project deadlines, and
meetings.
- 03 Educational Use:
Organizing assignments,
study schedules, and
exams.

ADVANTAGES &

DISADVANTAGES

ADVANTAGES

- EASY TO USE AND IMPLEMENT.
- HELPS IN ORGANIZING TASKS EFFICIENTLY.
- IMPROVES PRODUCTIVITY BY KEEPING TRACK OF TASKS.

DISADVANTAGES:

- BASIC APPLICATIONS MAY LACK ADVANCED FEATURES.
- RISK OF DATA LOSS IF TASKS ARE NOT SAVED PROPERLY.
- LIMITED FUNCTIONALITY IN SIMPLE VERSIONS.

FUTURE SCOPE

01

Enhanced Features:

Adding reminders and notifications.

Integration with calendars and collaboration among and email.

01

Collaboration:

Enabling task sharing

users.

02

Mobile Application:

Developing a mobile version for on-the-go task management

03

Advanced Data

Management:

Using cloud storage for data persistence and accessibility.

CONCLUSIONS

- Summary:
 - A To-Do List Application is a simple yet powerful tool to organize tasks.
- Future Enhancements:
 - Potential to add advanced features for improved usability.
